

Statewide Capital Projects Initiative

Working with Local Nonprofit Partners

1

Invite health and human services focused nonprofits that provide essential, direct supports/services to those in need to review the grant FAQs and grant application guidance for the Initiative at iuw.org/capitalgrants.

2

Encourage nonprofits to complete the eligibility assessment.

3

If a nonprofit passes initial qualification, assess project alignment with grant guidelines and essential health and human services needs in your community. Does project advance critical needs? If in doubt, contact Indiana United Ways!

4

If project advances critical needs, contact Rachel Lee, Director of the Statewide Capital Projects Initiative at Indiana United Ways at rachel.lee@iuw.org to discuss project workplan and assess grant readiness.

5

In consultation with Rachel, determine whether the proposed project qualifies for Tier 1 or Tier 2 project application.

6

Participate in project meetings and support nonprofit partner in collecting materials required to complete application. Special funding *may* be available to contract support staff for a project. *Contact IUW to learn more.*

7

Endorse the project with IUW, then invite nonprofit to apply for Tier 1 or Tier 2 funding (see additional steps below).

Tier 1 Request

8

Committee review of application and project

9

Contract signing upon approval

Contact Rachel Lee to obtain application guidelines and materials after January 8, 2024

Tier 2 Request

8

Committee review of application and project

9

If given conditional approval, sign partnership agreement with nonprofit community partner

10

When **partner** completes fundraising, submit project for final approval

Local IUW Member United Ways are not responsible for fundraising nor obligated to commit funds to a capital project venture.

11

Contract signing upon approval
